

Based on the principles of bioenergetics and knowledge of the body's internal mechanisms of self-regulation, the Energy Blanket gently restores energy balance and rejuvenates the body.

Restores energy balance

Excellent results in combination

with SCENAR treatment

OLM-01 Energy Compound Blankets

OLM-01 Energy blanket is made as a multilayer blanket that has an inner shielding layer. The shielding layer is made of synthetic films with a micron thick metallic coating.

On the user's side the shielding layer has the reflection factor of electromagnetic radiation in the infrared and extremely high-frequency range.

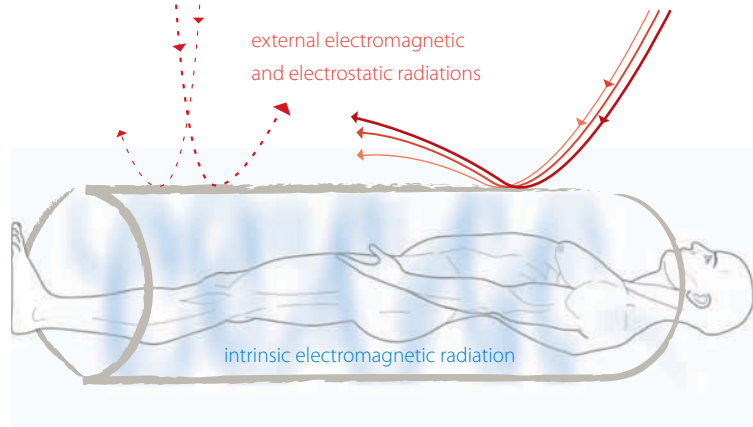

The OLM Blanket influencing factors are:

- Protection of the covered body from external electromagnetic and electrostatic action;
- Reduced heat emission and normal heat exchange due to reflected heat radiation in the infrared spectrum of electromagnetic waves;
- Influencing the user with his/her intrinsic electromagnetic radiation of extremely high frequency (the working frequency of body cells);
- Redistribution of surface electric charge on the patient.

All the above factors together improve protecting and recovery capabilities of the body and normalize energy exchange.

The reflected infrared radiation gives a very relaxing and soothing warm feeling.

The weight and size make the blanket an easy to use and 'take anywhere' product.

The OLM Blanket can be ordered in three different sizes:

small - 110×160mm,
standard - 220×160mm,
large - 220×205mm

Certificates:

Research and publications about OLM Healing Blankets are available for download at <http://www.scenar.com.au/technology/publications>

OLM Clothes

The Clothes are modifications of OLM Energy Blanket and can be used when walking or sitting, lying or sleeping . The clothes are for individual use only.

The OLM Clothes are available in S, M, L, XL and XXL sizes.

OLM Bootlegs

for local use - hip, knee and ankle-joint areas

OLM Boots

for local use - foot and ankle-joint areas

OLM Knee-caps

for local use - knee-joint area

OLM Bandage Blanket

long bandage blanket (2m) - can wrap different body parts

OLM Shorts

for local use - hip joints, abdominal cavity, pelvis, rectum, buttocks and urinary tract

OLM Belt

for local use - lumbosacral, coccygeal nerve, and stomach areas

OLM Pereline

for local use - neck, shoulder and chest

OLM Mittens

for local use - hands and wrist joints

OLM Waiscoat

for local use - chest, stomach and lumbosacral spine areas

OLM Oversleeves

for local use - forearms, elbow and wrist joints areas

OLM Cap

for local use - face and neck areas
