

TRAIN the TRAINER Level 1

AGENDA

1. The concept of health and disease. Holistic principles of SCENAR-therapy System " Body - Device"
 - components (participants) of this system,
 - functions and tasks of each member of the system : the therapist , the patient , the device,
 - tasks of the system: monitoring, control, evaluation , correction,
 - forming an interaction (therapy) based on biofeedback
2. Theory of single origin and single correction of diseases, as precursors to the appearance of SCENAR-therapy. The concept of " small asymmetry " as universal areas for Scenar therapy.
3. The responses of the patient and the practitioner
 - Group 1 - response from the adaptive systems,
 - Group 2 - drainage reaction
 - Group 3 - reactions in SCENAR therapists
 - methods of prevention and correction.
4. ULM Healing Blanket and clothing:
 - history of creation,
 - design and mechanism of action,
 - Terms of Use.
5. Individually Dosed Mode - Dose1:
 - IR, CR,
 - Dose,
 - Speed,
 - «0»,
 - Coefficients.
6. Questions of private SCENAR Therapy:
 - respiratory problems,
 - problems of the cardiovascular system, heart zone, vascular pathology,
 - problems of the urinary and urogenital zones,
 - problems of the gynaecology and gynaecological areas,
 - abdomen zone,
 - neurological problems,
 - joint problems,
 - problems of upper respiratory tract,
 - eye problems,
 - Endocrinology.
7. Answers to questions on the use of devices, electrodes, OLM and clothing
