Professional SCENAR Practical Workshops

To address the need for more practical work with Professional SCENAR devices, RITM Australia is introducing regular Practical Workshops for SCENAR Practitioners.

During these workshops the Practitioner will be able to practice some fundamental treatment protocols from Level 1, 2 and 3, Sport Injuries and Woman's Health courses. We have also added some interesting and easy to implement techniques presented during the 2017 Conference for those who couldn't attend.

The workshops will be organised into two parts in different cities all around Australia.

Each attendee will be able to practice all protocols and get treated as well. At the end of each workshop Self Treatment protocols will be presented so that practitioners learn different ways to treat themselves. We have also added a Q&A session at the end so that we clarify different issues that Practitioners are facing.

The workshops will be guided by one or two RITM Australia's Authorised Trainers.

The workshops in each city will cover different protocols. So Practitioners may attend several workshops and the information will not be a repeat.

A Certificate of attendance will be issued to each attendee that may be used as Professional development points in some Associations.

Benefits for attending the workshops:

- *Guided Practice*
- *Glimpse of what has been presented during the 2017 SCENAR Conference Protocols from some courses that have not been attended by Practitioners*
- *Practitioner self-treatment protocols*
- *Networking*
- *Certificate of attendance*

The attendance fee is \$260 per attendee per day. The fee must be paid 4 weeks before the date of the workshop to secure your place.

For more information or to book for a workshop please contact us.

Best regards
Elly Tomova, Ms. Sc. Eng.
