Date	Time	Topic
7 <sup>th</sup> of April Sunday	9:00 - 10:30am	Dr. Boris Kulizhsky, RITM OKB (Interpreter Vera Payne) Physiotherapeutic application of SCENAR – Part 5/7
	10:30 – 11.00am	Coffee break
	11:00 - 12:30	Dr. Boris Kulizhsky, RITM OKB (Interpreter Vera Payne) Physiotherapeutic application of SCENAR – Part 6/7
	12:30 - 1:30pm	Lunch
	1:30 - 3:00pm	Dr. Boris Kulizhsky, RITM OKB (Interpreter Vera Payne) Physiotherapeutic application of SCENAR – Part 7/7
	3:00 - 3:30pm	Coffee break
	3:30 – 5:00pm	Vera Payne How do we structure treatment sessions effectively, what protocols to use when, the gift of 3+6 <sup>7</sup>
	5:15pm–7:00pm	SCENAR Practitioner Association AGL Meeting
8 <sup>th</sup> of April Monday	9:00 - 10:30am	Dr. Boris Kulizhsky, RITM OKB (Interpreter Vera Payne) Comparison between SCENAR and other methods of electrotherapy. Why SCENAR is universal?
	10:30 – 11.00am	Coffee break
	11:00 - 12:30	Michael Butler New Effective Techniques to Produce Fast Results Treating the Most Common Condition You Will see in Your Clinic - Back Pain! <sup>8</sup>
	12:30 - 1:30pm	Lunch
	1:30 - 3:00pm	Conference Panel - Questions and Answers Conference Closure
	3:00 - 3:30pm	Coffee break

<sup>1</sup> **The energetic therapeutic application of D5 how to treat pain, application treatment of meridians with SCENAR and alarm points, an introduction to the energetic structure of the body.**

A special opportunity to investigate the universal applications of the D5 and how to use the results to treat the energetic systems of the body with SCENAR algorithms. A mind opening presentation with practical simple techniques will be discussed how to treat the meridians, balance the energetic mental and emotional systems of the body.

<sup>2</sup> **Physiotherapeutic application of SCENAR** – this is a full course on the most common SCENAR Applications in a physiotherapy practice. It provides information about pain relief protocols that make quick difference in the patient condition. The course is appropriate for beginner and advanced SCENAR Practitioners and covers algorithm of therapy and procedures, treating the symmetries, Practical protocols for therapy of the spinal column, antiedematic protocol, Asymmetry of the lymphatic system, Myostimulation, Joint pain, Working with paired joints, Nerve root pain, Irradiation, Sacroiliac disease, Collar zone with split electrodes.

<sup>3</sup> **Stroke and Brain injuries**

<sup>4</sup> **Dose 5 application** – the session is for Practitioners who own a Professional device with Dose 5 and those who are interested in Dose 5 application. The course will include theoretical and practical knowledge of how and when to use Dose 5, how to interpret the numbers and treatment protocols.

<sup>5</sup> **Complex Medical Histories: Musculoskeletal Imbalances - Cancer and a compromised Lymph System.**

Simple musculoskeletal issues presenting in a multidisciplinary clinic environment are less common these days. Instead many people are presenting with a variety of problems. Cancer and a compromised lymph system being one of them.

We will briefly explore the function of the Lymph System. How after modern cancer Treatments these Lymph Pathways may have been compromised and how we can treat various pain Syndromes by integrating SCENAR Therapy and Lymphatic Drainage techniques.

We will explore some case studies and hands on practice, which will deepen your understanding of the drainage pathways and at the same time will make you realize the individuality of a person's circumstances and therefore the importance of clinical professionalism.

#### **6 Building Your Business Successfully**

Many people whether entering business for the first time, be it a Complimentary Clinic, Massage Rooms or adding and extending their established place of work; may lack the day to day knowledge of how to establish administration setup, attracting clients, holding clients, keeping records and professionally retaining files. Coming from a strong background in business I simplify how you may initiate sound protocols that are efficient and practical, which will lead you to less hours for more money and with a work and lifestyle balance.

#### **7 How do we structure treatment sessions effectively, what protocols to use when, the gift of 3+6**

One of the most common questions I get asked by practitioners is: "What protocols do I need to treat xermatosis?" In my trainings I tell my students - don't ever ask me that question! Firstly, we do not treat a dis-ease, secondly the client may have not been diagnosed correctly or fully, and most importantly we must follow what the body is telling us. In my presentation I will lay out a comprehensive guide for practitioners to help them further understand and follow the amazing intelligence of the body's healing responses with protocol examples.

#### **8 New Effective Techniques to Produce Fast Results Treating the Most Common Condition You Will see in Your Clinic - Back Pain!**

This session will demonstrate and teach a new way to use SCENAR to achieve better and quicker results in treating this prevalent condition. Attendees will be able to have hands-on experience in using the methods taught and go back to their clinics and immediately apply what they have learned.

# Conference Fees and inclusions

## *FOR SCENAR Practitioners*

### **SPA Member**

(<https://scenarassociation.org.au/>) -  
**AU\$1350 - Pay on or before 31.03.2019**

**Standard fees - AU\$1450 - Pay on or before 31.03.2019**

You will have access to all four days with a variety of speakers and we have the esteemed Dr Boris Kulizhskiy flying in from Russia. This is a not to be missed, new information, learning the Dose 5 Protocol and applications and a chance to mix and converse with other practitioners from all over the world.

### **Full Registration - 4 days inclusions:**

- Access to Conference sessions and workshops
- Morning Tea
- Afternoon Tea
- Lunch
- Conference Gala Dinner
- Name Badge
- Conference Bag
- SCENAR device check and update
- Conference product specials

---

## **For Home Users**

There is a day for you too.

Dr Peta Zafir and Dr Boris Kulizhsky will be presenting a full day training, recapping the unique aspects on the Home Device and adding more learning: such as how and where to place your device, with and without pads, changes in frequency and how to use your device for a variety of protocol and procedures. The Program will be available soon.

The day will start with sign in at 8.45am and finish at 2pm. There will be 1 hour at the completion of the day for you to ask questions relating to personal conditions and situations.

Positions are very limited and booking need to be made ASAP.

This full day learning includes all handouts, morning tea, Lunch and afternoon tea and

costs only \$150 for the day. Full non-refundable payment needs to be received before the 15th March 2019 to retain your place, numbers are very limited – NOT TO BE MISSED.

**AU\$150 - Pay on or before 15.03.2019**

**One day Home User training - 8th of April 2018 inclusions:**

- Access to the workshop on 8th of April
- Morning Tea
- Afternoon Tea
- Lunch
- Name Badge
- Hands outs
- SCENAR device check
- Conference product specials
